

4/20/2017

Dear Mayor Miller, Ron Salvesen and the Hyrum City Council,

For many years, I have had a great desire to serve on the city council. I feel like the strengths and experiences I have would be an asset to the council and our city. Working with the public and especially the senior community has been an eye opener. They have valid concerns, questions and ideas that I feel would benefit our city. I am around the seniors (ages 50-94) on a daily basis and have discussions frequently with them about the needs they have. They are the ones who have made our freedoms possible and they have a need to be heard and respected. I make it a point to try to be a good listener, to really hear what others are saying. In my opinion that is a good quality to have when serving the public.

My desire to serve also stems from a need to be involved with politics and policies on a local level. Our city is in a good place right now. The parks, fire department, new housing and the EMT building are just part of what makes our city a great place to live. The library, senior center, museum, civic center and Elite Hall are icing on the cake in our small community. I would hope we can continue to build and add to places that offer valuable and safe services to our citizens.

While I love the country feel of Hyrum, I realize that things are rapidly changing as we build and grow. I really want to be part of that process. I would love to work on projects that can bind our diverse cultures together, to find ways and activities to keep more of our youth in good environments and teach them. They are our future and need our help.

I guess my main objective and personal goal would be to keep our city safe, beautiful and friendly and a place where everyone feels welcome.. I would be a hard, dependable, cheerful public servant. I would appreciate being considered for the interim position on the Hyrum City Council.

Thanks so much for all you do,

A handwritten signature in cursive script that reads "Vicky McCombs".
